

Intelligent Property Price Prediction & Agentic Real Estate Advisory System

End-Semester Capstone Project Report

Generated: April 19, 2026

EXECUTIVE SUMMARY

This capstone project implements a comprehensive AI-driven real estate analytics system with two milestones: **Milestone 1:** ML-Based system with 90.45% accuracy using Random Forest ensemble and scikit-learn pipelines. **Milestone 2:** Agentic AI extension using LangGraph, Chroma RAG, and Streamlit UI. **Live Demo:** <https://real-estate-ml-2401010135.streamlit.app/>
